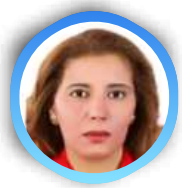
Speakers & Meet Our Team



Dr. Nour Shafik Emam El-Gendy
Professor
Egypt

Prof. Sheuli Sen
Principal,
India

Mr. Narender Chinthamu
NASA Scientist, Harvard

Dr.S.R. Padma
Principal,
India

Dr.Prachi
Associate Consultant
India

Prof. Dr. Indrarao Shaligram Ahirrao
Professor, SSVPSS'S L.K. DR. P.R.Ghogrey Science College, India

Dr. NESA SATHYA SATCHI
PRINCIPAL CUM PROFESSOR IN PEDIATRIC NURSING, Nursing Apollo College of Nursing, Chennai, India

Dr. Bharat Pandey
Assistant Professor,
Government
P.G.College , Ranikhet,
Uttarakhand, INDIA

Dr. LALDINPUIA
Associate Professor,
Mizoram University,
MIZORAM, India

Dr. Mausumi De
Professor,
DMGMCH, Purulia,
India

Dr.L.Manonmani
Principal & HOD of Shalyatantra PG Department in TMAE's Ayurvedic Medical College,Karnataka,

Dr. Rajkumar Berwal
Officer In-charge,
India

Ts. Dr. ASLINA BAHARUM
ASSOCIATE PROFESSOR,
SUNWAY UNIVERSITY,
MALAYSIA

Prof. Monica Munjial Singh
Professor & Chairperson
Centre for Social Work,
Panjab University
Chandigarh

Dr. Urvashi B. Sodvadia
School of dental medicine,
Nova Southeastern
University,
USA

Dr. V. Bena Jothy
Associate Professor,
Women's Christian
College, India

Dr. T.Karthikeyan
Dean & Chairperson,
Gurugram
University
Gurugram, India

Dr. Pathak R.K
Former Director,
ICAR-CISH

Dr. Sheetal Thakur
Assistant Professor
Dept. of Sociology Govt.
College Kullu Himachal
Pradesh, india

Prof. D. M. Mamatha
Professor & Head,
Sri Padmavati Mahila
Visvavidyalayam,
Women's University,
INDIA.

MRS. SANGLE SHRADHA JAGANNATH
Department Of
Pharmaceutics,
Maharashtra,
India

Dr. Nagesha S N
Assistant Professor
India

Dr. Kiran
Department of
Livestock Products
Technology, India

Dr. Zareen Baksh
Assistant Professor,
ST. Aloysius
(Autonomous)
College, India

Dr. Sonal Ingle
Department of
Biotechnology,
Nagpur Veterinary
College,
Maharashtra,India

Dr. Tapas Pal
International
Collaborator of
GEITEC, Federal
University of
Rondônia, Brazil

Dr. Amrah Maryam
Assistant Professor
University Women's
Polytechnic
Aligarh Muslim University,
Aligarh, UP, India

S. PRIYA
Associate Professor
Apollo College of Nursing,
Chennai,india

DEAR ATTENDEES,

We are glad to announce the 2nd International Research Excellence Awards & Conference on Engg, Science and Medicine 2025 to be held on 27 & 28-Jun- 2025 organized by VDGOOD and its editorial Board Members. This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, *Professors *Scientists *Researchers *Scholars, Innovators, Regulators – gather to present and discuss about the above said areas. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts. About us

ABOUT US

It's a Right Time to choose the Right Way of Success, Aim of VDGOOD International Conferences, Open Access Journals and Awards is to provide the Platform for Researchers across the world to recognize their Achievements, and also its provides a forum to the appropriate target group by organizing Planned Annual Meetings with the aim of generating new knowledge and better understanding. Our world is undergoing a revolutionary period in the creation and dissemination of new knowledge and innovation in many disciplines. Simultaneously humans are on a journey to the achievement of self-actualization, which relates to the ultimate fulfillment of one's potential. The unprecedented levels of discovery and innovation that are the hallmarks of recent decades are giving birth to entirely new meetings, which are in turn stimulating further advances, new opportunities, fresh insights and serve as a 'Continuing Force for Progress'. To improve the common man's life by developing new innovative Medical and Engineering ideas, Technical tools or models or products of their need. These new ideas and knowledge may be disseminated to the common man by organizing conferences, workshop, seminars and/or awareness programs and by publishing high quality academic international Books, or Journals, or Magazines or Tracts/Pamphlets on any subjects/topics, which is related to the overall growth/improvement/uplift of all sections of society.

CALL FOR PAPER

Abstract/ Title for presentation in the conference are invited from Researchers, Professors, Practitioners, Research Scholars and P.G. & U.G. Students, etc. Authors are requested to send Updated CV and Abstract/ Title to e-mail: connect@virtualcollaboration.in

CONFERENCE TOPICS

The major topics of conference include, but not limited to:

ALL THE DISCIPLINES IN ENGINEERING :

- Engineering Disciplines (Civil, Electrical, Computer Science, etc.)
- Green & Renewable Energy
- Design & Technology
- Image Processing & Remote Sensing in Geography
- Information and Communication Technologies
- Artificial Intelligence & Robotics
- Innovations in Mathematics & Statistics
- Climate Change & Environmental Issues
- Agriculture, Forestry & Food Science

TRACK 1: ENGINEERING

SESSIONS AND TRACKS

TOPICS OF INTEREST FOR SUBMISSION INCLUDE, BUT ARE NOT LIMITED TO:

BIOTECHNOLOGY & HEALTH SCIENCES

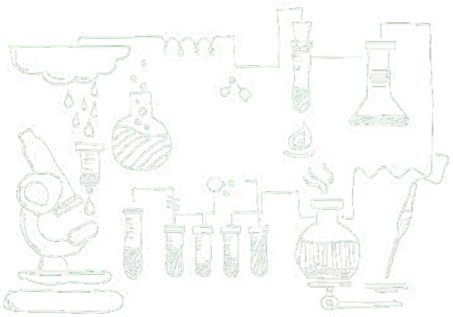
- Genetic Engineering and CRISPR Technologies
- Biopharmaceutical Manufacturing
- Bioinformatics and Biomedical Applications
- Synthetic Biology

SESSIONS AND TRACKS

TOPICS OF INTEREST FOR SUBMISSION INCLUDE, BUT ARE NOT LIMITED TO:

APPLIED SCIENCE OR BASIC SCIENCES

- Mathematics
- Earth Sciences
- Oceanography
- Physics
- Soil & Waste Management
- Environmental chemistry
- Geology
- Hydrology
- Computer Science
- Material Sciences



SESSIONS AND TRACKS

TOPICS OF INTEREST FOR SUBMISSION INCLUDE, BUT ARE NOT LIMITED TO:

ALL THE DISCIPLINES IN MEDICINE:

TRACK 2: MEDICINE

- Herbal and Traditional Medicine
- Fetal and Maternal Medicine
- Regenerative Medicine
- Emergency & Critical Care Medicine
- Internal Medicine and Primary Care
- Preventive Medicine & Public Health
- Precision and Personalized Medicine
- Restorative & Alternative Medicine
- Sports Medicine and Fitness
- Medicine and Pediatrics
- Ayurvedic Medicine
- Angiology/Vascular Medicine
- Medical Innovations
- Medicinal chemistry and pharmaceutical sciences
- Cancer care medicine
- Nursing and Health care medicine
- Pneumology/Respiratory medicine, etc.

Note: Related all topics of Technology and Mathematics included.

AWARD NOMINATION CATEGORIES

- Best Oral/ Poster Presentation Award
- Best Paper Award
- Best Speaker Award
- Best Researcher Award
- Young Scientist Award
- Best Teaching Faculty Award
- Best Teaching Faculty Award
- Best Faculty Award
- Best Researcher Award
- Best Women Scientist Award
- Innovative Researcher Award
- Distinguished Scientist Award
- Lifetime Achievement Award
- Outstanding Scientist Award
- Best Case study Award
- Innovative Scientist of the Year
- Best Faculty of the Year Award
- Remarkable Researcher Award
- Emerging Scientist Award
- Young Achievers Award
- Research Excellence Award more.

NOMINATION FOR VARIOUS AWARDS

Greetings from VDGOOD Professional Association, a registered Non profitable organization serves in the areas of Research publication, Organizing conferences, Research and Development.
From this year BrainyMeet announces Regional level, non-monetary award to recognize the outstanding people. committee invites nominations for the below awards from Educational institutions, Universities, Research centers etc. The awards are proposed to be presented in any international conferences organized by VDGOOD Professional Association.

- Nominee is requested not to pay any money for this nomination as the committee doesn‘t charges anything for nomination.
- The relevant supporting documents should be submitted by Google Form and Email also.

Award Committee verifies the information provided by you to us. We are closely in line with the data integrity and perfection. Please provide all the substantial documents required for the moving forward in the Regional level awards with your nomination. All the information provided by you to us will be confidentially dealt with and acted upon. Misleading or wrong information may strictly lead to is qualification.

“WHY SHOULD ONE ATTEND AN INTERNATIONAL CONFERENCE?”

In today’s fast changing world, attending a conference has become a “must” to survive in an academic discipline. Many academics have become aware of this fact as the number of conferences and participants increase dramatically. Conferences offer benefits that you simply can't get hermetically sealed in your cube.Attending international conferences allows you the opportunity to listen to different points of view and to learn new ideas and trends in your field across the Globe. Meeting new people with different cultures and dispositions enlightens your way of thinking in your field of study. You will witness some of the many different aspects and solutions which exist on the same issues. They also provide you with new techniques, new types of equipment, data to publish, and certain facts that you may not have heard of. International Conferences present numerous invaluable opportunities to refine your vision by learning new skills in a different environment. The knowledge and skills you consume from an international conference will also play a key role in your future work. There are several ways in which one can sharpen one’s skills in the modern era. However, when it comes to answering the question of what advantages does one stand to gain by leaving the comfort of their home and attend a conference, continue reading below.

1. NETWORKING OPPORTUNITY TO BOOST THE FUTURE

Despite the many social media channels we have today to keep in touch with people living far from home, nothing beats meeting with someone in person or virtually in the same or similar field of studies all around the world and to share thoughts on recent advances and technological breakthroughs.It is an opportunity to expand the knowledge that one has and upgrade performance in accomplishing institutional objectives. Conferences offer participants the opportunity to not only meet like-minded people but also to meet a many people who can enhance your career by giving you more opportunities than you would otherwise have. As you step up and attend conferences you build a network of people who can raise your caliber of work to greater heights as you achieve shared objectives. Brainy Meet Conferences are also a great way to keep in touch with your mentors and those you admire, as well as stay close to your competitors and keep an eye on what they are doing. The more network you have with people; the more ways you’ll be able to make for yourself to be successful

2. KNOWLEDGE ABOUT LATEST RESEARCH

Meeting new people with different cultures and dispositions enlightens your way of thinking in your field of study. You will witness some of the many different aspects and solutions which exist on the same issues. If you want to know about the very latest findings in your field before they are even published in journals, then a conference is the place to be. Many researchers will present preliminary findings or work which has not yet been published at a conference. These ideas can be great inspiration for your own research. Many companies exhibit their latest products at conferences, seminars, and workshops. Attending one of them could help you better understand the type of tools people in your field use to get results. Companies often test new products at these events simply to check the receipt of their new products. If you are lucky, you can also get a free sample because many companies like to distribute their prototypes and samples for constructive feedback.

2. PUSHING YOUR LIMITS

Events such as conferences, seminars, and workshops force participants to venture out and try new things, things they could not have imagined doing otherwise. While it's easy and sufficient for some people to watch a video, listen to a podcast, or read a blog from home This type of event normally involves a number of competitions and challenges that allow participants to challenge and test their skills. Participating in such a challenge will help you gain crucial visibility that could potentially help you accomplish great things in your respective field.

3. Refreshing Your Mind

One biggest advantage of Attending an International conference will help you understand that you are not alone and that there are a number of people like you who are struggling in the same way as you. You will meet people who are more like you, who are more successful. This could help you to gain crucial insights on how to overcome obstacles and obstacles in your journey and to help you achieve similar success. Even if you meet people who are not as successful as you, you could, in turn, inspire them. It will allow you to nourish your brain and open yourself to new thoughts and ideas. It will let you have an opportunity to do many new things and build up your knowledge. It is like a productive vacation filled with knowledge Being part of the community, interacting with like-minded people, learning from people who know more than you, passing on information to those who know less, helping to create an extraordinary philosophy of productivity and success.

4. Acquiring & Honing New Skills

Throughout history, there have been a number of popular scientists, scholars, philosophers, and academicians who have concluded that sharpening the blade or refining of skills and gaining of knowledge are the habits of highly productive and successful people. Another way to look at an international conference is that it is an excellent way to get away from the stress of work to relax and learn new and exciting things that will help make not just your work easier when you return but also more effective.

5. Improving Skills on Communication & Presentation

Presenting a paper is one of the main objectives of an academic conference participant.Soft skills are important for every career, and in academia or research then your skills in presentation and communication are particularly important. Fortunately, conferences give you the chance to practice these skills. Rehearsing and giving your talk or poster presentation will make you more comfortable in front of an audience, and you'll learn things like the speed at which you should talk and the amount of detail which you need to give in your explanations. Answering questions after your presentation and chatting with other attendees will help to hone your communications skills

6. Presenting a paper

Presenting a paper is one of the main objectives of an academic conference participant. The presenter will have the chance to present a paper in front of colleagues of the same or similar fields of study and will be able to receive positive feedback and constructive criticism about their research. The exchange of ideas on fields of interests seeds the links for future collaborations across the world. There are many who were once GAI conference participants now developing research projects and writing papers together. Each participant in our conferences get a congratulatory certificate from the conference chairman's voice that is turned into sound wave art.

7. Add a Cherry on top of your Profile

Attending an international conference is never a small thing. Having a certificate of participation from an international conference is like a cherry on top of your profile. It is one of the prestigious achievements one can display on their resume or CV.

Having an international conference listed under your achievements will play a huge role in making your profile be on top of the pile as it shows that you are confident, talented and have most likely collected the knowledge you currently possess from practical sources rather than theories and the internet like most of the other people. For students and researchers, academic conferences help to make research on a particular subject easier. They provide access to various research activities related to a particular subject with current findings and developments anticipated from them.

8. Know your strength & weakness through feedback

By being part of international conferences, you will be able to assess yourself, your knowledge, and your potential. It will help you discover various things about you that were previously unknown and help you make a plan on how to focus and enhance those hidden talents, presenting at a conference can be nerve-wracking, and you might be tempted to fall back on the same presentation that you always give because you know that it's safe. But if you do this, you'll be missing out on one great benefit of conferences: the chance to get feedback from experts on early versions of your work. You can use your presentation time to talk about preliminary results from your most recent experiment, and the feedback you get from your audience can help you to anticipate reviewers' comments when you try to get it published. Alternatively, you could present your well-established work, and then at the end, you could throw out some ideas you have for future experiments and get feedback on these. A conference presents the chance to see a whole room full of world experts in your particular field, so there's no better chance to get your work in front of these people and have them candidly discuss its strengths and weaknesses. This reason and benefit are alone enough to attend an international conference.

9. Publication

Another common reason for attending a conference is no doubt publication. Conference proceedings are always a good way to have your research published and indexed. You'll also have the opportunity to publish your research in one of our journals. Please note that only selected papers are published in our journals for free of charge while all papers/abstracts accepted for the conferences.

REGISTRATION FEE

	Category	Indians (INR)	Others (USD)
Participant	Student	1800	70 $
	Ph.D Scholar	2700	90 $
	Delegate	2700	120 $
	Listener	500	50 $
	Group Registration	20 % Relaxation Applicable	

Above mentioned fee is Excluding 18% GST

GROUP REGISTRATION Discount available for more than 3 members

INDIANS REGISTRATION MODE:

MODE OF PAYMENT: BANK TRANSFER

All the payment should be paid by any of online mode (Net Banking, NEFT, IMPS, and UPI). After confirmation of the Abstract and Award the account details will be shared though E-mail: connect@virtualcollaboration.in and WhatsaApp: +91 7708973048
