## About Us

It's a Right Time to choose the Right Way of Success, Aim of Brainy Meet International Conferences is to provide the Platform for Researchers across the world to recognize their Achievements, and also it provides a forum to the appropriate target group by organizing Planned Annual Meetings with the aim of generating new knowledge and better understanding. The unprecedented levels of discovery and innovation that are the hallmarks of recent decades are giving birth to entirely new meetings, which are in turn stimulating further advances, new opportunities, fresh insights and serve as a 'Continuing Force for Progress'.

## About Conference

We are glad to announce the Celebrating of world Pharmacist Day to be held on 24 & 25 -Sep-2024 organized by Brainy meet and its editorial Board Members. This event aims to bring together leading researchers, scholars, academicians, and practitioners to share their ideas and research findings in the field of Medical, Health Sciences and Pharmacology The conference is designed to provide a platform for participants to exchange insights and share their knowledge and experiences on developments in cutting-edge research, new innovations, and discoveries in the pharmaceutical and health sciences fields. The conference provides a unique opportunity for networking, discussions, and collaboration,

## Who Should Attend

- Directors, CEO's of Organizations
- Business Development Managers
- Chief Scientific Officers
- R&D Researchers from Biosimilar and Biologics Industries
- Professors, Associate Professors, Assistant Professors
- PhD Scholars
- Patent Attorneys
- Intellectual Property Attorneys
- Investment Analysts
- Association, Association presidents and professionals
- Drug development and discovery companies

HOW

## Priming of Plant Immunity

The sensitization of stress responsiveness during induced resistance is called priming.

Naive state → Priming → Primed state → DEFENCE

Primary stimulus → Biotic attack

Priming boosts the plant's defensive capacity and brings it into an alerted state of defence.
