

International Conference on Oncology and Endocrinology 2023

22-Jul-2023

About Us

Brainy Meet Working towards finding the New Innovations to make life easier in all aspects, Innovation is the process of creating and implementing a new idea. It is the process of taking great ideas and converting them into useful products to general life. These useful ideas are the result of creativity, which is the prerequisite for innovation. Creativity in the ability to combine ideas in a unique way or to make useful association among ideas. Creativity provides new ideas for quality improvement in organizations and innovation puts these ideas into action.

ABOUT THE CONFERENCE

Dear Attendees,

We are glad to announce the International Conference on "**International Conference on Oncology and Endocrinology 2023**" to be held from **22-Jul-2023** organized by VDGGOOD and its Board Members. This conference is a unique international platform that's a confluence of all stakeholders of the ecosystem – Industry, Academia, Researchers, innovators, and Regulators – gathering to present and discuss the above-said areas. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting-edge presentations, special panel discussions, and livelier interactions with industry leaders and experts.

About Brainy Meet

It's a Right Time to choose the Right Way of Success, Aim of VDGGOOD International Conferences, Open Access Journals, and Awards is to provide the Platform for Researchers across the world to recognize their Achievements, and also it provides a forum for the appropriate target group by organizing Planned Annual Meetings with the aim of generating new knowledge and better understanding. Our world is undergoing a revolutionary period in the creation and dissemination of new knowledge and innovation in many disciplines. Simultaneously humans are on a journey to the achievement of self-actualization, which relates to the ultimate fulfillment of one's potential. The unprecedented levels of discovery and innovation that are the hallmarks of recent decades are giving birth to entirely new meetings, which are in turn stimulating further advances, new opportunities, and fresh insights and serve as a 'Continuing Force for Progress'. To improve the common man's life by developing new innovative Medical and Engineering ideas, Technical tools or models, or products of their need. These new ideas and knowledge may be disseminated to the common man by organizing conferences, workshop, seminars, and/or awareness programs and by publishing high-quality academic international Books, Journals, or Magazines or Tracts/Pamphlets on any subjects/topics, which is related to the overall growth/improvement/uplift of all sections of society.

Why do I need to attend FBACD CONF 2023?

1. Virtual Event – In this pandemic situation, it's the safest way to keep closer to the other scientists.
