

International Conference on Physics & Mathematics ICPM - 2023

About the Conference

We are glad to announce the International Conference on "International Conference on Physics and Mathematics 2023, to be held from **15-Dec-2023** organized by VDGGOOD and its Board Members. This conference is a unique international platform that's a confluence of all stakeholders of the ecosystem – Industry, Academia, Researchers, innovators, and Regulators – gathering to present and discuss the above-said areas. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting-edge presentations, special panel discussions, and livelier interactions with industry leaders and experts.

About us

It's a Right Time to choose the Right Way of Success, Aim of VDGOD International Conferences, Open Access Journals, and Awards is to provide the Platform for Researchers across the world to recognize their Achievements, and also it provides a forum for the appropriate target group by organizing Planned Annual Meetings with the aim of generating new knowledge and better understanding. Our world is undergoing a revolutionary period in the creation and dissemination of new knowledge and innovation in many disciplines. Simultaneously humans are on a journey to the achievement of self-actualization, which relates to the ultimate fulfillment of one's potential. The unprecedented levels of discovery and innovation that are the hallmarks of recent decades are giving birth to entirely new meetings, which are in turn stimulating further advances, new opportunities, and fresh insights and serve as a 'Continuing Force for Progress'. To improve the common man's life by developing new innovative Medical and Engineering ideas, Technical tools or models, or products of their need. These new ideas and knowledge may be disseminated to the common man by organizing conferences, workshop, seminars, and/or awareness programs and by publishing high-quality academic international Books, Journals, or Magazines or Tracts/Pamphlets on any subjects/topics, which is related to the overall growth/improvement/uplift of all sections of society.

Why do I need to attend ICPM 2023?

- Virtual Event – At this pandemic situation, it's the safest way to keep closer to the other scientists.
- The hard copy will reach your doorstep.
- Attendees will receive the certificate of conference participation and an award
- Participant's names will be nominated for "Research Awards 2023"
- Attendees will get 1 year membership free of cost.
- A scientific account will be open & will maintain to keep and promote your records for the next 6 months.

Session Tracks:

Physics

- Accelerator Research and Development
- Anti-Hydrogen
- Applications of Particle Trapping: Quantum Information, Chemistry, Trace
- Astroparticle Physics
- CMB polarization
- CMB, Supernovae, Weak Lensing, Large Scale Structure
- Cosmology and astrophysics as related to particle physics
- Cosmology and Gravity
- CP violation, CKM and Rare Decays
- Dark Matter and Dark Energy
- Detectors and Data Handling
- Early Universe and Particle Cosmology
- Flavour Physics, CP Violation and Tests of Fundamental Symmetries
- Hadronic Structure, Parton Distributions, soft QCD, Spectroscopy
- Heavy Ion Collisions and Soft Physics at Hadron Colliders
- Heavy Ions
- Heavy Quarks Properties
- High-Energy Astrophysics
- Highly Charged Ions in Traps
- Large and small scale structure formation
- Matter/Antimatter Asymmetry
- Modern field theory, dynamics of strongly coupled theories
- Neutrino Physics and Astrophysics

Mathematics

- Your paragraph texApplied Mathematics and Engineering: Modeling, Analysis and Computation
- Applied partial differential equations
- Numerical analysis and methods
- Scientific computation
- Mathematical methods in optics and electromagnetics
- Mathematical modeling in materials science and biology
- Nonlinear problems in mechanics
- Homogenisation and multiscale analysis
- Inverse problems
- Algebra and its application
- Differential equations, dynamical systems and their applications
- Engineering applications and scientific computations
- Financial and actuary mathematics
- Fuzzy mathematics and its applications
- Geometry and its application
- Modeling and simulation
- Statistical methods in technical and economic sciences and practice
- Mathematical sciences
- Applied mathematics
- Scientific computing
- Computer science
- Operations research and management science
- Statistics
- Actuarial science
